

CAPABILITY STATEMENT

About Blue Cypress Consulting

Blue Cypress Consulting provides utility management and community planning services for local, state, and federal clients throughout the United States. We partner with our clients as a prime consultant, work with teaming partners as a valued subconsultant, and are a registered woman-owned small business in dozens of locations across the country. Caroline Evans, our founding principal, started the company in 2013 with a vision of improving the communities in which we work and play. We have offices in Decatur, Georgia; Cincinnati, Ohio; and Seattle, Washington.

We support communities and the environment throughout the country by helping our clients solve their toughest problems. By partnering with leaders and stakeholders, our experts assist our clients in addressing their needs and achieving their goals.

Our team of engineers, planners, GIS professionals, and consultants provide a range of services to meet the needs of each client and project. Our Utility Management team, led by Director John Evans, PE, has a proven history of providing quality management consulting services to water, stormwater and wastewater utilities throughout the United States, including: strategic planning; asset management including levels of service analysis; operational optimization to increase quality, efficiency and effectiveness; information management including analytics and business intelligence, and software selection and implementation. Our team has more than 225 collective years of experience working with water, wastewater, and stormwater utilities, and maintains a portfolio of successful projects throughout the US representing more than 65,000 miles of linear assets.

Our Utility Management Services include:

- Asset Management
- Operational Optimization
- Program Development for Water Distribution and/or Collection Systems
- Stormwater/MS4 Management
- Regulatory Compliance
- Data Analytics and Dashboard Development
- CMMS Selection and Implementation
- GIS Analysis and Mapping
